EXPERIENCE

Meta

2020 - 2026

Content Design Manager, Ads

2024 - 2026

- Led content strategy and UX writing for Meta's advertising platform, directly influencing products that generated 3.65% incremental revenue across ~50 product launches in 2025.
- Managed and coached a team of 8 content designers across North America and Europe, partnering with 20+ engineering teams plus Product Marketing, Sales, and Ops.
- Coordinated 30+ content designers across 9 orgs to audit and rewrite 12,500+ in-product strings for Meta's largest-ever account system change, achieving 97–98% completion ahead of a company-wide launch.
- Facilitated cross-org workshops across Design, Research, Product Marketing, and PM to realign product architecture for a critical UI surface supporting 10+ simultaneous product launches.
- Architected an AI-powered content audit workflow adopted company-wide, using FigmaMake, Claude, and VS Code to accelerate content operations.

Staff Content Designer, Ads

2020 - 2024

- Drove content and design strategy for Meta's Value ad product portfolio as a Staff IC, contributing to growth from 5.9% to 10.2% of total Meta ad revenue in one year; 96% of new

revenue was enabled by content and UI changes including in-product guidance, product naming, and usability improvements.

- Named and launched 7+ ad products and concepts end-to-end, including two new attribution products that exceeded \$5B ARR combined and one (Conversion Leads Optimization) that exited beta at \$53M ARR versus a \$12M goal.
- Wrote content principles and terminology systems used as the reference standard across the advertising platform's content design practice.

Blue Cross Blue Shield of Michigan

2013 - 2020

Product Owner & Digital Strategy Manager

2018 - 2020

- Led digital strategy and product ownership for bcbsm.com, the public-facing website of a health insurer with 7M+ members; drove a 10-point increase in customer satisfaction scores over 18 months through strategic UX enhancements
- Spearheaded a full-site redesign and platform migration in partnership with an external agency, lobbying internally for a company-wide CMS to unify asset management across external and internal channels

Project Manager & Scrum Master

2015 - 2018

- Led an agile web development team as Scrum Master, maintaining low sprint volatility and completing a major site redesign in 7 months from kickoff through implementation

Web Editor

2013 - 2015

- Wrote and managed digital content using UX best practices including plain language, SEO, and user experience design principles; served as QA Editor ensuring project delivery met company quality standards

EARLIER EXPERIENCE

Patch.com - Regional Editor

Managed 18 remote editors and led audience development across 30 local news websites through content strategy, SEO, and analytics-driven editorial decisions.

MLive.com - Associate Web Producer

Produced daily digital content with SEO focus; managed site-wide entertainment projects and weekly analytics reporting.

Association of Health Care Journalists - Web Producer

Produced content for a professional journalism organization; created original web features including an interactive 2008 presidential health care policy tracker.
